Life Was Endangered.

Special to the Indianapolis Journal. LAWRENCEBURG, Ind., Oct. 31 .- "Doc" Smiley, a veteran of the civil war and well-known resident of this city, was shot and fatally wounded last night by Policeman Henry Rief. Smiley and Rief had trouble on several previous occasions and last spring the former struck the officer a heavy blow over the heart which came near resulting in his death. For this offense Smiley received a heavy jail sentence and has been looking for trouble with Rief ever since. He is known to have threatened the officer's life several times since his re-

lease from the county jail.

Last night Smiley, while intoxicated, followed Rief about town, abusing him and seeking to draw him into an altercation. Rief advised him to return to the Big Four Railway improvement camp, near Law-renceburg Junction, where he has been employed as cook since his release from the ncinnati workhouse several weeks ago. A few more words passed between them and Smiley drew a revolver from his pocket and leveled it at the officer, but before he could press the trigger Rief had drawn his own weapon and fired, the builet passing between the eighth and ninth ribs of Smiley's right side and through his lung.

BEDFORD, Ind., Oct. 31.-A nine-year-old son of Thomas Butler, near Heltonville, Lawrence county, was painfully shot by boy named Holt, aged fifteen years, whose only excuse for the deed was to frighten Butler and see him jump. The bullet was from a twenty-two callber revolver. The Butler boy was on his way home from school afoot and was met by Holt, who was on horseback and who drew a pistol and began firing, one ball striking the Butler boy in the leg between the ankle and knee and lodged in the foot over the instep. Several shots were fired at him. The grand jury will investigate the matter to learn where Holt got the pistol and cartridges.

DIVORCE DECREES DENIED.

Judge Heaton, at Fort Wayne, Makes

a Notable Record. Special to the Indianapolis Journal. FORT WAYNE, Ind., Oct. 31 .- Judge Heaton, of the Superior Court, to-day broke all records in the matter of refusing divorces. He overruled four cases, whose attorneys were his close political and social friends, because, as he explained in clearing the docket in the last day of the term, the grounds on which the divorces had been

filed were not sufficient. The court has been flooded with applications for divorce and besides a conviction that the divorce record of the country is nothing less than a national scandal, which must undermine the social fabric if not checked, he holds that he is justified in enforcing the letter of the law in such litiga-

one of the cases the couple had been In married only one year and appeared in for a divorce on the anniversary of reservoir last night by Game Warden the marriage. Judge Heaton alluded to the statement of counsel that both sides were willing that a decree be granted and said that was not at all a reason for a divorce. In another case the application was rejected because the applicant had done the same acts charged against the defendant. The court said that he who seeks equity must do equity.

Lang, basso, of the Dewald Dry Goods Company, and Charles H. Wooden, acting president of the First National Bank. They rank among the first of amateurs, and it would be difficult to find their equal as a male quartet in the country, either as to quality of music or length of time during which they have sung together. They had with them, in the short musical programme last night, Prof. C. F. W. Meyer, who played the organ when they sang their first song twenty years ago. They re-peated the first secular song, "Two Roses," and the first sacred song, "Remember Now Thy Creator," they sang at that time. The Linden and the Apollo quartets, known at Winona in connection with the Haydn as the Fort Wayne Triangle, assisted in the programme. A reception and refreshments followed, 500 persons attending. No Deaths in the Reformatory.

special to the Indianapolis Journal. JEFFERSONVILLE, Ind., Oct. 31 .-Within the past two months there has not been a death among the inmates of the Reformatory, which is an unusual record, as before that time there was an average of one or two each week. The fact is more noticeable, too, from the fact that at this time of the year many deaths have occurred in the institution from tuberculosis. The healthy condition of the prisoners is attributed to the better sanitary conditions that now prevail, due largely to the erection of the new cellhouse and the assignment of the prisoners to single cells.

SURPLUS FOR THE YEAR ONLY A LIT-TLE OVER HALF A MILLION.

Expenditures Increasing and Income of the Government Decreasing-Fewer Luxuries Imported.

WASHINGTON, Oct. 31 .- A significant fact is noted in the treasury statement issued at the close of business to-day. It is that the receipts and expenditures of the government for the first four months of the present fiscal year are practically the same, the surplus being so small as to be only a fraction of the aggregate. One year ago the surplus for the same months of the fiscal year was \$13,500,000, to which \$5,000,000 of anticipated interest should properly be added, making a total of almost exactly one third of that for the entire fiscal year, which finally stood at \$54 .-000,000. There has been no similar anticipation of interest during the four months of this fiscal year and there is practically no surplus. The total receipts for the fiscal year have been about \$190,397,285 and the expenditures \$189,811,697, leaving a surplus of about \$585,000.

the practical wiping out of the surplus is a \$20,000,000 mortgage and decided to issue due not only to a decrease of the receipts, but also to an increase of expenditures. The customs receipts fell off about \$8,000 .-000, while expenditures of several of the departments increased slightly. In addition to those natural increase \$5,000,000 was paid out in aid of the Louisana Purchase Exposition. September's falling off in customs receipts came largely in the sugar and the steel schedules. A significant change in customs receipts between this year and last is the falling off n the importation of articles of luxury. Internal revenue receipts are slightly more this year than last. city of Elkhart in the Elkhart Circuit

Court here.

The suits are the outgrowth of the recent sale of the Elkhart Hydraulic Company to Walter Brown and his associates and the clash that followed with rival companies at Elkhart in the company's plan to secure the holdings and rights it desired. The controversies were with ex-Congressman Charles G. Conn, who years ago purchased of the Hydraulic Company a tract of land on which is now located his two instrument factories and a flouring mill and improvements aggregating \$75,000. The original sale included perpetual power rights, aggregating 173 horse power, and worth \$5,000 annually. VATICAN BELIEVES THAT NEAR FU-

TURE WILL BRING A SOLUTION.

Religious Orders of Philippines Will Not Be Permitted to Appropriate Proceeds of Sale.

ROME, Oct. 31.-The Vatican is expecting in the near future a solution of the Philippine questions, concerning the purchase of the friars' lands and the departure of the friars. While the United States has augfriars' lands and the friars have reduced their demands to \$12,000,000 the difference between the two parties are still consider-000,000, thus evenly dividing the difference an understanding can be reached. In order to render the solution easier the Vatican has instructed the generals of the four interested orders, to-wit., The Dominicans, Augustinians, Recoletes and Franciscans, to make their provincials in the Philippines understand thoroughly that money derived from the sale of their property will not belong to the friars in the sense that the latter cannot take it out of | because the committee cannot report on the islands as the lands are not theirs personally, but came to them as ministers of has done all it can do, and that the fault religion, and, therefore, must go entirely for the benefit of the church in the Phil- reports ready for the committee to examippines. Indeed when an agreement shall ine yesterday. have been reached it will be proposed that the money be loaned the United States or

deposited in a Philippine bank. Once the land question has been settled it is thought the withdrawal of the members of the four objectional orders will follow as a consequence. Their withdrawal, however, will not reflect in any way on them, their nation or their orders, not being by the existing political and social situa-tion in the Philippines, which will be judged by the Amercan bishops going there. the Filipinos are still animated by sentiments of antipathy against the friars, which menace the peace and order of the community, they will not employ them in the service of the church and thus the friars will be forced out of the archipelago by the head of the Philippine hierarchy with-out any pressure from the United States. With this in view the American bishops are taking to the islands a considerable number of priests who will be able to satisfy the reability. His personal popularity among the ligious needs of the people with the assist-people of the Hawaiian islands has been ance of native priests. Having as their guiding basis the principle of their govern-ment of the complete separation of church and state, each being entirely free from interference or control by the other, it will be impossible to grant, as the friars ask, their restoration to their former positions by the forcible intervention of the civil gov-

FAULT OF THE CITY CLERI

OFFICIAL PAPERS NOT SENT TO COUNCIL FINANCE COMMITTEE.

For that Reason No Report Can Be Made to Council To-Morrow Night

When the Council finance committee met noon to decide what reports to make to Council to-morrow night on several ordinances the administration is anxious to get through, Chairman Gasper, of the committee, found that the city clerk did not have the ordinances ready for the com-

Mr. Gasper says this delay on the part of the new city clerk will prevent the committee from making any report on the ordinances to-morrow night. Mr. Gasper expects a big "howl" from City Controller Dunn, the ordinances, but he says the committee lies in the city clerk's failure to have the Among these ordinances is the one to

make a special appropriation of about \$6,000

to pay the salaries in the city engineer's office the remainder of the year and the ordinance to transfer about \$4,500 from the bridge fund to the street repairing fund and the Brightwood waterworks fund. that the Board of Works has. The Board

of Works has allowed the pay roll of the city engineer's office for October, amounting to \$1,128. The city controller wants the board to rescind the allowance, as he is asking Council for a special appropriation to pay these salaries. On the advice of the city controller, the Board of Works has recalled the "special clerks" allowances made to W. R. Williams and Albert Zaring, clerks in the Board of Works offices, and Harry O'Brien, chief clerk of the city engineer's office. The clerks of the former administration will receive salaries for the entire mont of October and the city controller does not think the new clerks should receive salaries as long as the old ones are paid. The city controller had no bids for the \$40,000 worth of \$1/2 per cent. bridge bonds which were to have been sold yesterday, according to advertisement. This is part of the \$65,000 issue, authorized by the old Council, to secure money with which to build a bridge over Fall creek at Northwestern avenue. The city controller does
